Labor Benefits Multiplier Table

BENEFIT	SCENARIO	FORMULA
Hourly Pay		Daily Wage /8
Daily Pay		Monthly Pay x 12 /365
Monthly Pay		Wage Rate x 365 /12
Overtime Pay	On a Regular Work Day	Hourly Rate x 125% x number of OT hours
	On a Rest Day or Holiday	Hourly Rate x 130% (OT rate) x number of OT hours
Rest Day	Worked on a Rest Day	Daily Rate x 130%
Holiday Pay	On a Special Holiday	Daily Rate x 130%
	On a Special Holiday and Rest Day	Daily Rate x 150%
	Unworked Regular Holiday	100% Daily Wage
	Worked Regular Holiday	Daily Rate x 200%
	Worked Regular Holiday on a Rest Day	Daily Rate x 260%
	Worked Double Holiday (2 Regular Holidays in one day)	Daily Rate x 300%
Night Shift Differential	Worked Between 10 PM and 6 AM	Hourly Rate x 110% x number of night hours
	Regular OT + Night Hours	Hourly Rate x 125% x 110% x number of night hours
	Rest Day/Holiday OT + Night Hours	Hourly Rate x 130% x 110% x number of night hours
	Rest Day + Night Hours	Hourly Rate x 130% x 110% x number of night hours
	Special Holiday Work + Night Hours	Hourly Rate x 130% x 110% x number of night hours
	Special Holiday + Rest Day + Night Hours	Hourly Rate x 150% x 110% x number of night hours
	Regular Holiday Work + Night Hours	Hourly Rate x 200% x 110% x number of night hours

	Regular Holiday + Rest Day + Night Hours	Hourly Rate x 260% x 110% x number of night hours
	Double Holiday + Night Hours	Hourly Rate x 300% x 110% x number of night hours
	Regular Holiday + OT + Night Hours	Hourly Rate x 200% x 130% x 110% x number of night hours
	Double Holiday + Rest Day + OT + Night Hours	Hourly Rate x 300% x 130% x 130% x 110% x number of night hours

Note: Remember that Regular Daily Pay, Rest Day Pay, and Holiday Pay are already good for 8 hours of regular work time
